Laurencio & Gabriela, Health Center Patients

STORIES FROM AACI HEALTH CENTER

Laurencio and Gabriela, a loving married couple of over 44 years with a large and bustling family, were healthy for most of their lives. However, nearly a decade ago, they developed serious health issues. They did not have a primary care physician, but they also did not qualify for health insurance. Because of this, they struggled for years to find a clinic that could help them.

Our team member, Yajaira, helped them enroll for the Primary Care Access Program, which is a low-cost coverage program that provides primary health care services to low-income adults living in Santa Clara County without health insurance.

"After coming to AACI, we never went anywhere else! ... We love the AACI staff, the front desk staff ... are very helpful with providing Spanish translation and our doctor Dr. Kamath is truly the best!" said the couple.

OUR MISSION

We strengthen the hope and resilience of our community members by improving their health, mental health and wellbeing.

This year marked 45 years of AACI providing culturally sensitive care for the vulnerable and the disadvantaged in our community. Overshadowed by Silicon Valley's wealth are thousands of individuals and families that struggle with access to basic health and mental health care, safety and support. Through AACI, these children, families, and individuals received shelter, health, and healing.

At AACI, we believe care is more than just health. It is a promise of hope, resiliency and new possibilities.
