FY 2023-2024 IMPACT REPORT

23,841
community members reached & served by AACI

15,107
counseling sessions held by AACI Behavioral Health

12,282
meals provided through AACI Senior Wellness

Hamid saw a dentist for the first time!

AACI Center for Survivors of Torture (CST) & AACI Family Dentistry

Hamid is a 27-year-old man from Eritrea who, faced with grave danger, was forced to leave his family back home and flee for his life. After resettling, he was connected with an AACI CST counselor who also spoke the same language as him and began receiving counseling.

Revealing that he had been experiencing intense tooth pain, his counselor connected him with AACI Family Dentistry for a deep cleaning and fillings. **At 27 years old, Hamid never had access to a dentist until now.** His counselor accompanied him to his dentist appointment to provide translation and emotional support.

Now, Hamid reports that he's no longer in pain. He continues to visit AACI Family Dentistry to maintain his oral health and regularly meets with his CST counselor to support his mental health.

To read Hamid's full story, please visit *www.aaci.org/client-success-stories*.

A YEAR IN REVIEW

50th Anniversary Mural

Celebrating 50 years!

A hand painted mural by San Francisco based artist Juan Manuel Carmona was added to an exterior corner of the Moorpark building to celebrate and commemorate AACI's 50th anniversary. AACI youth clients and staff also joined in to help with the painting. **AACI wants this mural to bring a sense of joy, healing, and belonging, and welcome the community into our building.**

Community Health Fair

Partnering to bring health resources

AACI joined in on the fun at Dia Del Niño Community Resource Fair hosted by the Campbell Union School District. With support from Project Hope, School Linked Services, and 20 other agencies, **we were able to bring the Cadillac Winchester neighborhood health resources, free health screenings from AACI**, face painting, arts and crafts, food trucks, and more!

8,835
patient visits at AACI Health Center

1,509
active AACI Behavioral Health clients

3,551
calls to AACI Asian Women's Home's 24-hour crisis hotline

AACI Advocates for Survivors

Statewide advocacy efforts

AACI partnered with the California Partnership to End Domestic Violence along with over **200 domestic violence and sexual assault survivors and advocates** from across the state to advocate for state funding for lifesaving services like emergency shelter, counseling, and legal aid in the face of huge cuts at the federal level. **Together, the coalition met with almost 100 legislators, which led to the state including $103 million in the state budget for victim services!**

New Site in East San Jose

Serving more families!

To expand our reach to more marginalized families, AACI is adding a new location in East San Jose. Planning for construction is underway on a new site **located off McKee Road and Jackson Avenue in East San Jose**. This area has a high density of **diverse individuals and families who face barriers to receiving care** such as low income, lack of health coverage, and/or limited English proficiency. This new site will provide primary care, behavioral health, and wellness services to the community.

THANK YOU, DONORS!

AACI thanks the generous donors who invested in our efforts. We take this opportunity to acknowledge our major donors from July 1, 2023 to June 30, 2024. To view the complete list, please visit www.aaci.org/financial/.
