FY 2024-2025 IMPACT REPORT

Real Lives, Real Change

Esperanza and her daughters found safe housing at AACI!

After surviving a violent marriage once before, Esperanza found the strength to leave again when a new relationship turned abusive. She and her two daughters packed up what could fit in their car and made a four-day journey cross-country. Despite uncertainty, the family remained hopeful. After arriving in the Bay Area, they were referred to AACI Asian Women's Home (AWH).

AWH Advocates supported the family in establishing a new home in California. Using her remaining savings, Esperanza was able to lease an apartment and shared,

"My girls were literally jumping with joy when they moved into their new home."

The family now has a safe place to call home thanks to the support from AACI AWH. Esperanza and her family are on the road to healing and starting anew.
